# The BLUM Report- It's Never Too Late

## REMINDER!

- **Our chapter focus is to demonstrate the value of health information and technology through:**
  - **Supporting Healthcare Transformation**
  - **Expanding Access to High Quality Healthcare**
  - **Increasing Economic Opportunity**
  - **Making Communities Healthier**

# The BLUM Report- It's Never Too Late

## NEWS YOU CAN USE

- **VA HIMSS ADVOCACY DAY –14 March in Richmond VA 0930 to 1530!!!**
- **The DC Office of Finance provided a great presentation on 24 Jan on where the District is going with it's Medicaid Roadmap and program strategy with emphasis on addressing access to care are and SDOH. We will be posting the website for the briefing slides and recording.**

# The BLUM Report- It's Never Too Late

## This Year At HIMSS

- **The biggest news on the first day: HHS Proposed Rule- 21<sup>st</sup> Century Cures Act: Interoperability, Information Blocking and the ONC Health IT Certification Program:**  
<https://www.healthit.gov/sites/default/files/nprm/ONCCuresActNPRM.pdf>
- **There were lots of sessions on the usual topics that are hot and in the news- HOWEVER there were also lots of topics that emphasized new situational awareness: health vs health care; millennial preferences; CMS easing up on telemedicine use; issues with Revenue Cycle Management, CMMI and Value Based Care and Smart Cities**

Data Analytics for Clinical and Business Intelligence

**Thurs., April 18, 2019**

Health IT Modernization and Transformation

**Thurs., May 16, 2019**

TBD

# Healthcare Consumerism

## Objectives

- Tonight's panelists will discuss approaches to increasing patient-centeredness in healthIT, and increase access and equity in care using technology

## Questions for Today

- How is the government driving towards the future of healthcare consumerism by increasing choice, transparency, and the availability of healthcare services?
- How can we anticipate the needs of healthcare consumers better and provide more targeted solutions that ultimately prevent and control diseases while leading to a more cost-effective healthcare system?
- How can consumerism benefit both the healthier population and the less healthy population?
- What is the role of technologies such as wearables, telehealth, interoperability solutions, big data and other digital applications?

# Healthcare Consumerism

## Panelists

- **Bill Cerniuk**, Technology Director, VA Veterans Health Administration (VHA)
- **Lana Moriarty**, Director, Office of Consumer eHealth, HHS Office of the National Coordinator for Health Information Technology (ONC)
- **Col. Bobby Saxon**, Chief Technology Officer, CMS Center for Consumer Information & Insurance Oversight (CCIIO)
