

Health Data Migration & Transformation Challenges, Options, and Whether or Not You Should Migrate Thursday, February 15, 2018

Key Bridge Marriott, Rosslyn, VA 5:30-8:00 PM

1401 Lee Highway, Arlington, Virginia 22209 ~ Blue & Orange Metro Lines

Networking from 5:30 to 6:15 with refreshments

Registration: <http://nca.himsschapter.org/Events/>

Federal health agencies strived to deconstruct their daily mission and business functions into discrete data elements during the early days of databases. Since then, technical advancements, the arrival of Health Information Technology, syntax and semantics, and the digital revolution have yielded a fantastic range of data collection, sharing, and exploration options. Traditionally, with every improvement in COTS, data standards, and vocabularies, most of us have migrated the “old” data to the “new” data structure, and converted “old” terminology to “new” terminology. We want to explore what we’ve gained or lost in these migrations in terms of clinical meaning and functionality, and what emerging technical strategies, methods, and tools might allow us to see all data, for all time, as it was originally captured, without compromising the knowledge and power of Big Data.

- What risks are incurred during traditional data migration and how are these risks mitigated?
- What is the value - or risk - of data transformation at point of care versus in aggregated data analyses?
- What investments are needed to manage multiple data structures going forward, with or without migration?
- What techniques and solutions best facilitate an integrated interface of all data structures to end users?
- How can the experience and best practices of federal health agencies help non-government health systems?
- What platforms are available to overcome various stakeholders using disparate technologies that can lead to data transfer risks and failures?

Panelists:

- Mr. John Short, VistA Program Executive, Department of Veterans Affairs (VA) (Confirmed)
- Col John Scott, Data Manager, Defense Health Agency (DHA) (Confirmed)
- Dr. Jose Galvez, BTRIS Chief, National Institutes of Health (NIH) (Confirmed)
- Dr. Jon Gleason, Vice President of Clinical Advancement and Patient Safety, Carilion Clinic (Confirmed)

Moderator:

- Melissa Chapman, Vice President, Health, Salient CRGT

FY2017-2018 Corporate Sponsors:

Monument Sponsor:

This program is approved for up to 1.5 continuing education (CE) hours for use in fulfilling the continuing education requirements of the Certified Professional in Healthcare Information & Management Systems (CPHIMS) and the Certified Associate in Healthcare Information & Management Systems (CAHIMS). **Parking:** Free parking at the Key Bridge Marriott is available to all attendees. Present your parking ticket for validation at the HIMSS-NCA registration desk. Email nca.info@himsschapter.org to register.

Looking Ahead to the Next Meeting: Wednesday, April 18th 2018

To submit ideas for future programs, please contact Mark Kasuda (Mark.Kasuda@pb.com) or Will Manel (William.Manel@lcginc.com) and to submit ideas for future webinar topics, please contact Chris Behrmann (cbehrmann@seguetech.com). To sponsor an event, please contact Steve Erd (Steve.Erd@LexisNexisrisk.com)
