

## Defining a Cyber Moonshot for the Health Industry

Thursday, January 11, 2018

Key Bridge Marriott, Rosslyn, VA 5:30-8:00 PM

1401 Lee Highway, Arlington, Virginia 22209 ~ Blue & Orange Metro Lines

Networking from 5:30 to 6:15 with refreshments

Registration: <http://nca.himsschapter.org/Events/>

We are on journey to Cyber Resilience – a path that requires concerted leadership, a focused call to action and sustained investment. This discussion is intended to advance a meaningful dialogue about how Health organizations can integrate the recommendations of the Health Care Industry Cybersecurity Task Force into their long term strategy to achieve cyber resilience through a call for a Cyber Moonshot that advances policies and technology to secure our health industry landscape in the next five years.

### Topics include the top six imperatives from the task force report to congress:

- What do we need from political leadership in order to achieve a Cyber Moonshot?
- What technology will get us a step-change improvement in cybersecurity, particularly given the growth of IOT? (Examples: Cloud Migration/What about AI/Machine learning? Quantum computing?)
- What can we do to get the public to demand this and engage?
- How do we define and streamline leadership, governance, and expectations for health care industry cybersecurity?
- How do we increase the security and resilience of medical devices and health IT?
- How do we develop the health care workforce capacity necessary to prioritize and ensure cybersecurity awareness and technical capabilities?
- How do we increase health care industry readiness through improved cybersecurity awareness and education?
- How do we identify mechanisms to protect R&D efforts and intellectual property from attacks or exposure?
- How do we improve information sharing of industry threats, risks, and mitigations?

### Panelists:

- Christopher Wlaschin, Executive Director, Information Security and Chief Information Security Officer (CISO) - U.S. Department of Health and Human Services (HHS)
- Emery Csulak, PMP, CISSP, Chief Information Security Officer (CISO)/Senior Official for Privacy, Centers for Medicare & Medicaid Services (CMS)
- Omar Cruz, Chief, NCCIC/US-CERT Threat Analysis Branch, Department of Homeland Security (DHS)

### Moderators:

Gus Hunt, Cyber Practice Lead for Accenture Federal, former CTO of the CIA

### FY2017-2018 Corporate Sponsors:

### Monument Sponsors:

### Metro Sponsors:

### Small Business Sponsors:

*This program is approved for up to 1.5 continuing education (CE) hours for use in fulfilling the continuing education requirements of the Certified Professional in Healthcare Information & Management Systems (CPHIMS) and the Certified Associate in Healthcare Information & Management Systems (CAHIMS). **Parking:** Free parking at the Key Bridge Marriott is available to all attendees. Present your parking ticket for validation at the HIMSS-NCA registration desk. **Student registration is FREE.** Email [nca.info@himsschapter.org](mailto:nca.info@himsschapter.org) to register.*
